

# 1 U RACK-MOUNTED FAN TRAY

## P/N 7300005

### FEATURES

This 19" rack mounted fan tray has been designed for COTS protection inside rack in applications where the integrator has to meet stringent temperature environments and/or uses sensitive electronic devices. It offers over 1000CFM of cooling capacity in a 1 U form factor and is fitted with a digital ETI. When mounted in 901D enclosures, it can be used in conjunction with our hinged air filter assembly.

### CHARACTERISTICS & PERFORMANCES

Mechanical / Electrical	Features	Physical	Qualification
Heavy-duty steel casing	10 fans delivering up to 1000cfm	Weight: 35 lbs	This unit has been qualified inside 901D racks to MIL-S 901D grade A barge test requirements (14 Hz deck)
Removable top cover	Digital Elapsed Time Indicator	Height: 1 U	
Input: 115V / 60 Hz	LED indicator	Depth: 25.85 "	
Power main connector: IEC 320 with retaining clip	Dual fuse protection on input line	Width: 19" EIA	

### 901D OPTIONS

MIL-Type Power Connector

On / Off Switch

Hinged Air Filter Assembly ( for 901D racks only )

Fan Monitoring Through RS232 Interface
