

2 U RACK MOUNTED FAN TRAY

P/N 7300017

This 19" rack mounted fan tray has been designed for COTS protection inside rack in applications where the integrator has to meet stringent temperature environments and/or uses sensitive electronic devices requiring high flow rate and generating high pressure drop.

Features

Physical

Dimensions: 3.1" H x 19" W x 9.5" D
Weight: 13 lbs.
U's available: 2U

Mechanical

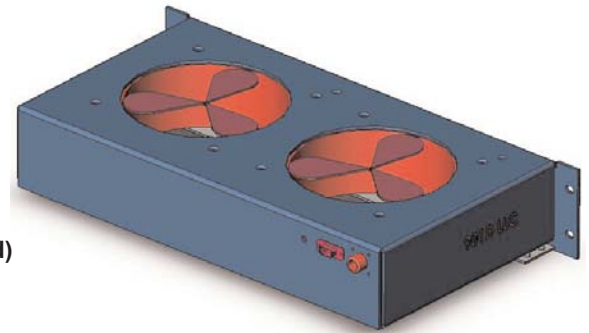

Drawer: Aluminum (Finger guards provided)

Electrical Features

Input: 115V / 60 Hz
Power main connector: Alarm sensor, HE5 style connector

Thermal

Maximum static pressure: 0.63 inch of water

Environmental Characteristics

This unit has been qualified inside 901D racks to MILS 901D grade A barge test requirements (14 Hz deck)

901D Options

Low Noise for stringent airborne rack requirements

Deepd rack /high power 20" deep configurations
